SUPPLEMENTAL REMEDIAL INVESTIGATION FOR LUCKY FUSE SITE (FTIR-07)
and FOR THE AVAWATZ VALLEY DISPOSAL SITE, (FTIR-08), NATIONAL TRAINING
CENTER FORT IRWIN, SAN BERNARDINO COUNTY, CALIFORNIA

Dear Ms. Dishart:

The Department of Toxic Substances Control (DTSC) has received the Supplemental Remedial Investigation for Lucky Fuse Site, FTIR-07, National Army Training Center, Fort Irwin, prepared on June 20, 2002 by Montgomery Watson Harza. DTSC received the document on September 25, 2002 and concurs with the remedial alternative recommended for FTIR-07 and FTIR-08. If in the future the NTC Fort Irwin enters into the base realignment and closure process, the baseline risk assessment for sites FTIR-07 and FTIR-08, should be re-evaluated in regard to human health concerns for residential scenarios.

If you feel that a meeting is necessary to resolve these issues and/or have any questions, do not hesitate to call me at 714-484-5448.

Sincerely,

Curtis P. Plotkin
Remedial Project Manager
Office of Military Facilities, Unit 'B'
Department of Toxic Substances Control
